220 EAST THIRD STREET

Wall Paper and Paints Draperies and Window Shades THE Ozark region of Arkansas abounds in delightful pleasure resorts. Eureka Springs has long been known as the largest and most popular of these.

Her picturesque mountain scenery, splendid hotels, places of amusement and public spirit have attracted visitors who return every season. The abundant springs of purest water have restored thousands of invalids to health and benefited a great many more. Near-by mountain streams abound in fish, and lakes and rivers furnish means for fishing, swimming and rowing.

Recent civic activity on the part of the Commercial club and other organizations has greatly increased the attractiveness of this famous resort, described at length in an illustrated pamphlet which will be furnished on application.
